

# \$100 Reward

Lost: shorthaired three year old male orange tabby, large in a long, tall and trim kind of way. He is not wearing a collar but he is microchipped and you can feel it between his shoulder blades when you pet him. Very talkative and friendly, although not terribly bright. Answers to Ari (pronounced airy) and is a huge sucker for kitty treats. Will probably approach you if you shake a bag of chips in his direction. Wildly curious and loves investigating things such as boxes, open doors, small spaces so please check your garage etc.
